Minnesota Housing Finance Agency (MHFA): Helping Families Stay in Their Homes: 2019

Janet, like others on a fixed income, struggled to keep her home updated and maintained. She worked hard for many years and raised two children on her own. There were times where it was hard to make ends meet. Her children are grown now and have children of their own. Janet now helps care for her grandchildren in her home. She contacted our Agency and inquired about the programs we offer to help fix up her home. TCCAP helped Janet obtain an MHFA loan, being wonderful to work with. Janet was so grateful for all the work she received on her home, especially her leaky roof.

With the MHFA loan, she received updates and repairs on her home that included a new roof, bathroom repairs and updates, GFI outlets, smoke alarms and CO detectors, and lead paint was removed. Janet also utilized our Emergency Services program for car repairs and her grandchildren attended our Head Start program. Janet said she is very grateful to TCCAP and the services we offer.
